

PREFACE TO THE EDITION

With great pleasure, we contribute, on behalf of the International Journal of Judicial Science Research Studies (IJJSRS), an issue that inculcates a wider concept of legal studies. The contributions made by the researchers are laudable.

Each issue should delineate the aims and objectives of the journal. The articles that will be published are in the double-blind peer-reviewed mode and represent contemporary thoughts concerning legal studies. This helps to update the legal community and acts like a platform for exchanging views, thoughts and knowledge.

As the IJJSRS Editorial Board, it is our prime duty to affirm that the IJJSRS will always have its foremost position in legal phraseology, reflecting modernistic enhancement and rising popularity in legal education, thought, and ideologies.

The initial volume of IJJSRS, the Eduschool Academic Research and Publishers, is a platform to boost the modernistic trends in the field of legal studies.
